

Things to Think About

**What do
you need
to find out?**

**What
information
do you have?**

**What strategies
are you going
to use?**

**Will you
do it
mentally?**

Will you use
pencil and
paper?

Will you
use a
numberline?

Will a
calculator
help?

What tools
will you need?

**What do you
think the answer
or result will be?**

**How would you
describe the problem
in your own words?**

**What facts
do you have?**

**How did you
tackle similar
problems?**

Could you
try it with
simpler numbers?

Would it help
to create a diagram,
table or picture?

Can you make
an estimate and
check your answer?

What ideas do
other people have?

How did you
get your
answer?

Does your
answer seem
reasonable?

**Can you
explain
your reasoning?**

**What have
you found
out today?**

**Did you learn any
new words today?
What do they mean?**
