

5 Minute Fillers

Science

Materials

Materials Word Scramble

Unscramble the words to find the materials.

1. TLEAM

6. KRIBC

2. BCAFIR

7. SGALS

3. DOWO

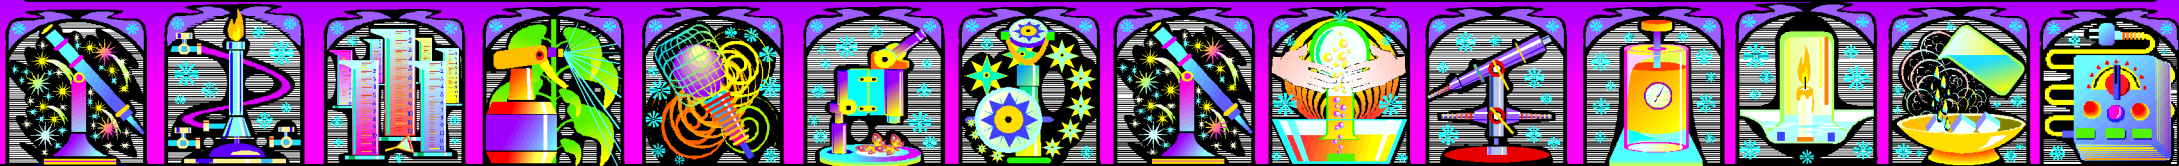

8. SITPALC

4. AERPP

9. LACKH

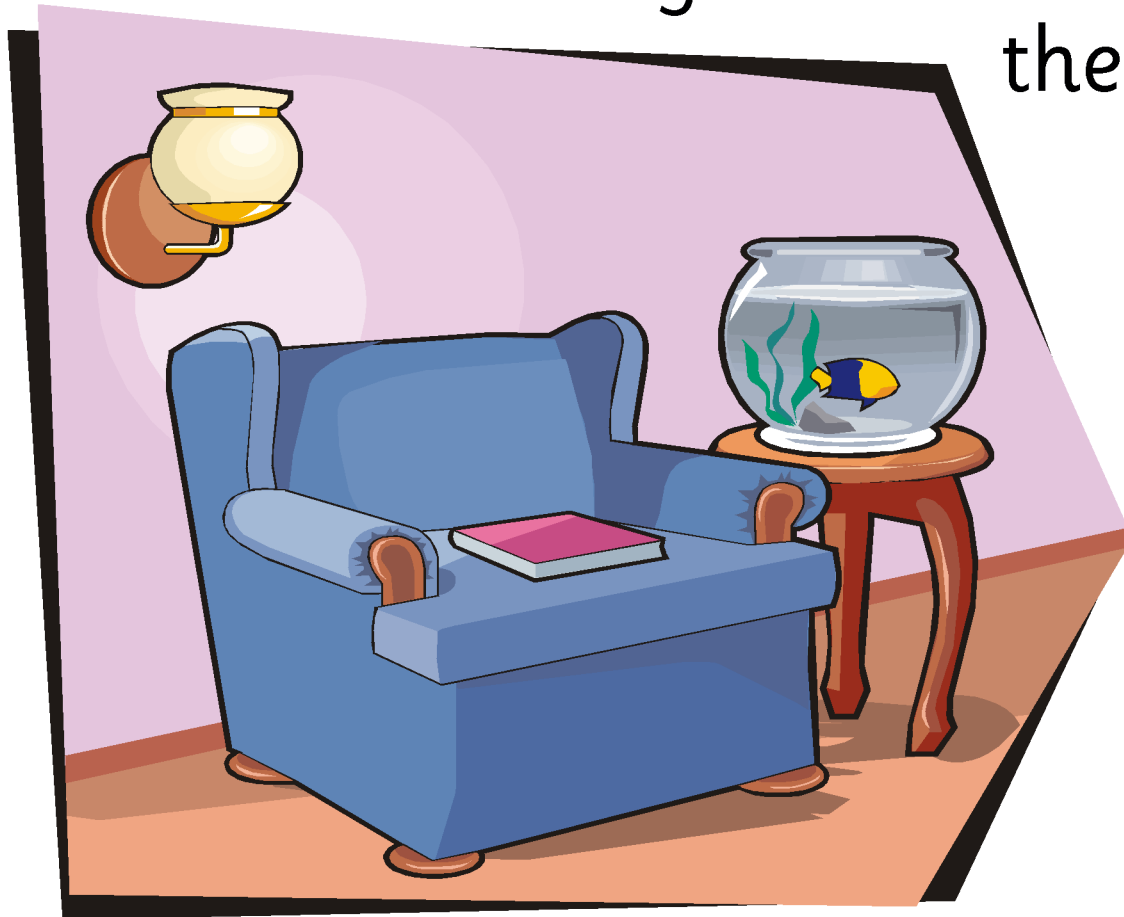

5. BURBER

10. WL00

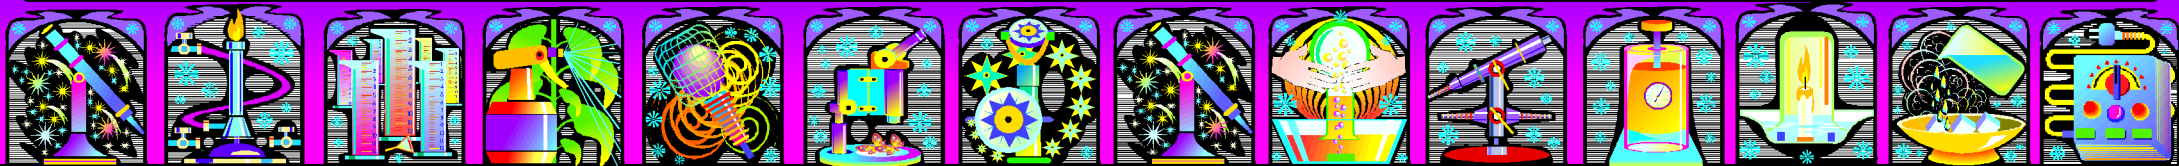

Spotting Materials

Which materials have been used to make these items? Why was each material used to make the item?

chair
fish bowl
stool
lamp
book

Properties Match

Match the materials to their properties. They may match more than one property.

metal

strong absorbant

wood

flexible waterproof

plastic

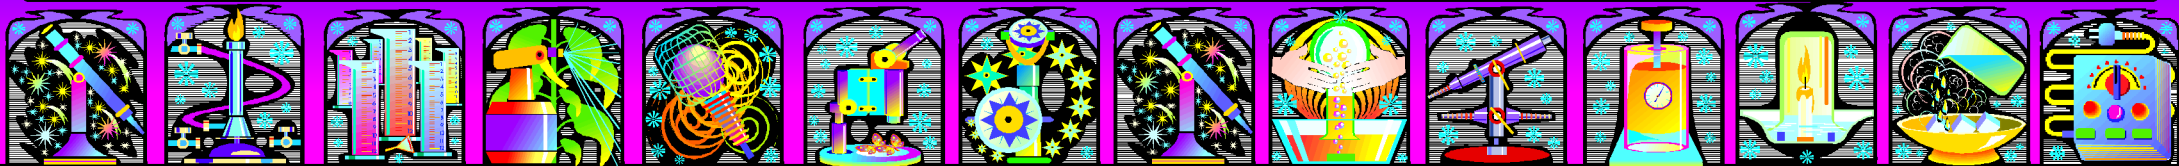

elastic insulator

glass

rigid conductor

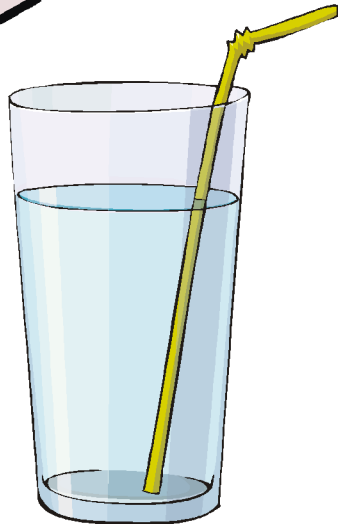

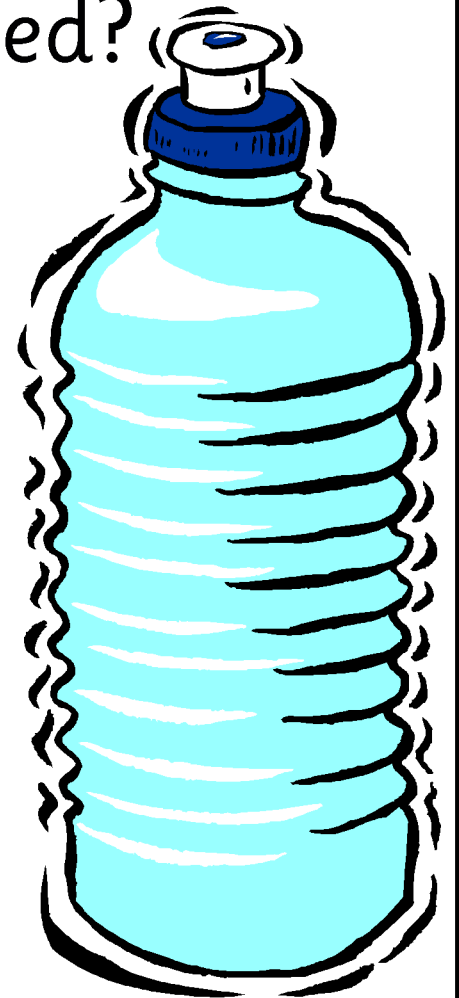

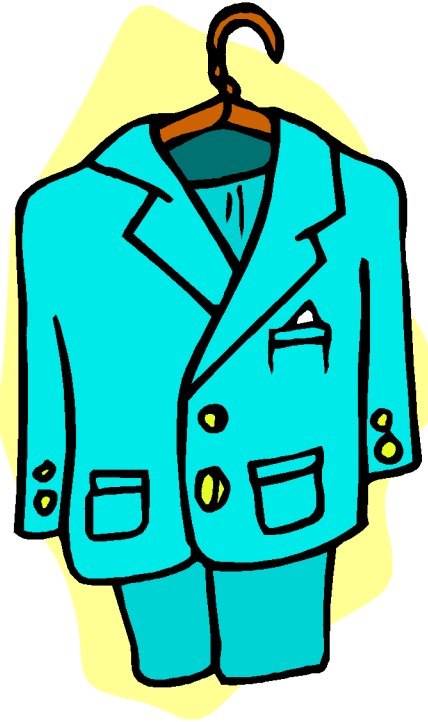

fabric

transparent hard

Choosing Materials

Which materials have been used to make these items. Why was each material used?

Choosing Materials

Which materials would you use to make the items below? Explain your choice.

window

shoes

knife

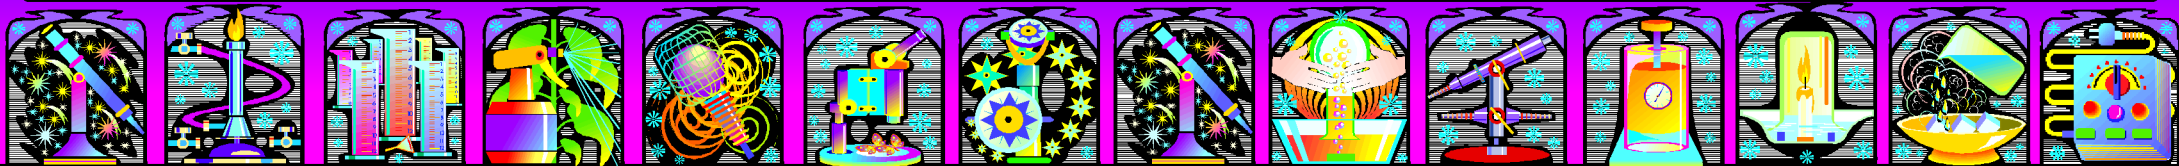

hammer

bowl

table

umbrella

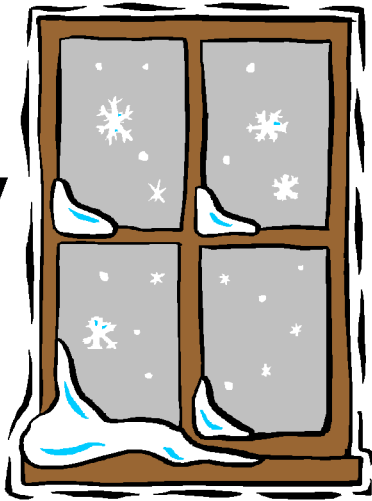

sleeping bag

What's the Problem?

Silly scientists have made these items from the wrong materials! What is wrong with the materials chosen?

**metal
window
panes**

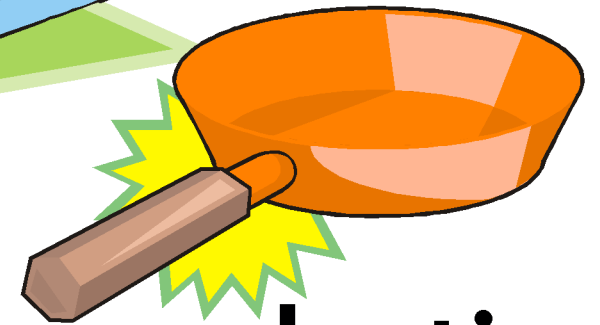

**paper
tent**

**glass
hammer**

**wooden
T-shirt**

**plastic
frying
pan**
